## PROFESSIONAL SUMMARY

Computer Science undergraduate who builds and ships full stack products end to end with the MERN stack. Built and deployed an AI powered resume assistant featuring LLM based content rewriting, ATS scoring, document parsing, and JWT secured REST APIs. 2nd Runner Up at GDG Noida DevFest Buildathon 2025, and Management Lead at GDG on Campus, running hackathons and workshops from planning to execution. Currently deepening React and DSA skills, and seeking remote internships to contribute to real world products.

## EDUCATION

**Galgotias University, Greater Noida, UP** *Expected 2027*

*B.Tech in Computer Science Engineering*

## TECHNICAL SKILLS

**Languages:** JavaScript, Python (Pandas), SQL (Basics)

**Frameworks/Libraries:** React, Next.js, Node.js, Express, Tailwind CSS, Motion

**Databases/Tools:** MongoDB, Git, GitHub, Postman, Vercel, Render

**Concepts:** REST APIs, JWT Authentication, API & LLM Integration, DOM Manipulation, Middleware & Routing, Testing (Jest)

## PROJECTS

**ATS Resume Builder** | Live | GitHub *MERN, Claude API*

- Built a full stack MERN app that scores resumes against job descriptions and rewrites weak bullets with the Claude API
- Implemented file upload and parsing pipeline for PDF/DOCX resumes using Multer, pdf parse, and Mammoth
- Built JWT authenticated REST APIs, hardened with rate limiting, Helmet headers, NoSQL injection guards, and Jest tests
- Automated resume PDF export using Puppeteer; deployed backend on Render and frontend on Vercel

**Personal Portfolio Website** | Live | GitHub *Next.js, Tailwind CSS, Motion*

- Built with an AI generated, animated 3D hero video, scroll driven animations, and a reduced motion fallback
- Added a Content Security Policy, security headers, and a 33 test automated suite that checks the live site
- Deployed on Vercel with web analytics and auto generated link preview images

**SentraSec AI – Security Analysis Suite** | Live | GitHub *Next.js, FastAPI, Gemini API*

- Owned product and pitch for a team built platform for phishing detection, code scanning, and cloud config risk analysis
- Won 2nd Runner Up at the GDG Noida DevFest Buildathon 2025, presenting the product to the judges

## LEADERSHIP & EXTRACURRICULAR

**GDG on Campus, Galgotias University** *Sep 2025 – Present*

*Management Lead*

- Ran 12 events, including TechSprint, a 36 hour offline hackathon with ~300 participants
- Coordinated a 26 member volunteer team and owned event operations: venues, logistics, scheduling, and speakers

**TechnoJam, Galgotias University** *Dec 2023 – Apr 2025*

*Member*

## COURSES

- 100xDevs (Harkirat Singh) – MERN Stack Development Cohort
