PROFESSIONAL SUMMARY

Computer Science student at Galgotias University building full-stack applications with the MERN stack, focused on shipping end-to-end products rather than isolated exercises. Experienced with Node.js, Express, MongoDB, REST APIs, and JWT authentication, with hands-on work in LLM-based tooling through an AI-powered resume assistant. Currently expanding into React through Harkirat Singh's 100xDevs cohort. Serves as Management Lead for GDG on Campus, Galgotias University, organizing technical events, hackathons, and workshops end-to-end. Seeking remote/WFH internship opportunities to contribute to real-world products as a full-stack developer.
